Subject: FW: Encounter Communication Request

From: Petre, Lori

Earlier this week we issued a communication related to AHCCCS implemenation of the new EDI valdiation process. As a component of that communication we indicated that additional information would be distributed regarding bullet point 2 - Changes to the acknowledgement and file error reporting transactions sent by AHCCCSA.

The attached documents are intended to provide the additional documentation referenced. There is an 824 companion document, a document with examples of 824s produced in response to encounters files (de-identified) and a document which gives annotated examples of the new 997s. Additional information about the 997 is included at the back of the implementation guide for all other transactions.

Please don't hesitate to contact Lori Petre at (602) 417-4421 or lori.petre@azahcccs.gov if you have any questions.
